## **PLAYER LOOTS \$33,000 IN ONE HUNT ON PLANET CALYPSO**

*After playing the MMO for less than a year*

**Gothenburg, Sweden – October 16, 2013 /Planet Calypso/** – Planet Calypso AB, operator of the longest established planet in the largest Massively Multiplayer Online Real Cash Economy (MMORCE), announced today that a player has just earned over \$33,000 by bringing down one of the toughest monsters in the game. Alan Akram of Norway was playing on October 5<sup>th</sup> when he achieved this epic Hall of Fame win.

“I was hunting around Fort Troy on Planet Calypso when I came upon a Mulmun Looter Elite. I was definitely trying to take down a creature above my level but I had good weapons, armor and friends,” said Alan Akram. “Luckily my cousin had mentored me for fights like this and I had a guardian angel healing me during the battle. I am stunned as I never expected a jackpot this massive and will definitely be playing this game for a long time.”

Mr. Akram, better known in the game by his avatar name “Alan Krom” has only been playing for 9 months and this is his largest loot to date. He flew to the hunting grounds in his Quad-Wing Interceptor and then stalked the creature on the ground. His primary weapon in the hunt was a

DOA Strikehammer, and he received supportive healing from Karine Rikane. While it takes skill and planning to take down any creature in the game, the loot system on Planet Calypso incorporates many factors including the toughness of the prey, avatar skills, equipment, and several incidental elements. Large loots such as this one do not affect other players' chances, and thus are always possible within the Entropia Universe system.

Entropia Universe is the largest Massively Multiplayer Online Real Cash Economy (MMORCE) game in the world. Players have no monthly costs, but deposit and withdraw real funds for their adventures on any planet, including Planet Calypso, in the Entropia Universe.
